SUMMARY

- Versatile technical professional skilled in full-stack web development and data analytics, with hands-on experience building responsive websites using JavaScript, React.js, and Flask, and transforming complex data into actionable insights with Power BI, Tableau, and Excel.
- Developed and launched the company website for tech hubs and delivered client web projects, while also conducting comprehensive feasibility studies and SWOT analyses to drive data-informed business strategies.
- Combines strong analytical thinking with creative problem-solving, capable of managing projects from data collection and visualization to front-end development and stakeholder collaboration.
- Proven leadership and teamwork abilities demonstrated through academic, community, and professional roles, with a track record of delivering results on time and fostering productive team environments.

EDUCATION

Obafemi Awolowo University, Osun State, Nigeria
B.Sc. Computer Sciences with Mathematics
Second Class Upper Division Completed
2025

WORK EXPERIENCE

Student Analyst
Cradle Techsoft Solutions Limited | January 2025 – October 2025

- Collaborated with management and stakeholders to identify and implement operational improvements, contributing to strategic business initiatives.
- Designed, developed, and launched the company's official, ensuring a responsive, user-friendly, and professional online presence.
- Created custom website designs for client projects, aligning with client requirements and brand guidelines.
- Attended industry seminars and training sessions on behalf of the company, bringing back insights to enhance team knowledge and processes.
- Maintained strong communication with leadership and cross-functional teams, ensuring clarity in project goals and timely delivery of tasks.
- Demonstrated reliability, teamwork, and effective time management in a fast-paced professional environment.

Data Analyst Intern
Cradle Tech Hub, Ile-Ife, Nigeria | April 2024 – September 2024

- Conducted a comprehensive feasibility study and SWOT analysis of major tech hubs across Ile-Ife and Osogbo, involving on-site visitations and extensive online research.
- Collected, cleaned, and structured qualitative and quantitative data in Excel, documenting strengths, weaknesses, opportunities, and threats for each hub.
- Developed interactive Power BI dashboards to visualize SWOT findings, enabling clear and actionable insights for stakeholder review.
- Analyzed thousands of data points using Tableau to create dynamic, user-friendly dashboards that supported data-driven decision-making.

- Presented data-backed recommendations to hub leadership, guiding strategic initiatives to enhance competitiveness and operational effectiveness.
- Proposed and designed a training framework for future analysts and web developers, including creating instructional Power BI tutorial videos to upskill team members.

Graphics Design & Photography Instructor
Omolara Computer and Photography, Ibadan | Sept 2017 – Aug 2018
- Taught graphics design and photo editing using CorelDRAW, Photoshop, and Lightroom to students of varying skill levels.
- Conducted photography training covering camera fundamentals, composition, and editing techniques.
- Fostered a creative learning environment that encouraged technical mastery and artistic expression.

PROJECTS

Restaurant Cash Flow Analyzer | *Full-Stack Developer* | 2025
- Built an interactive web application helping SMEs transform complex financial data into actionable insights.
- Developed interactive node-edge visualizations, real-time anomaly detection (**96.2% accuracy**), dynamic filtering, and automated PDF/PNG/CSV report generation.
- **Tech Stack:** Vanilla JavaScript (ES6+), HTML5, CSS3, Chart.js, Canvas API, jsPDF, Python-Flask, JWT.
- **GitHub:** [Link to repository]

Cradle Techsoft Solutions Official Website | *Frontend Developer* | 2025
- Designed, developed, and launched the company's official website using JavaScript and React.
- Ensured fully responsive layout, professional UI, and seamless navigation across devices.

3Trive Website | *Frontend Developer*
- Built and deployed the official company webpage with clean design and optimal cross-device performance.

Zoe Restaurant Frontend | *Frontend Developer*
- Created a modern, responsive restaurant interface focused on visual appeal and usability.

Tip Calculator | *Frontend Developer*
- Built an interactive tip calculation tool using JavaScript with a clean, user-friendly interface.

Portfolio Website | *Designer & Developer*
- Designed and deployed personal portfolio showcasing projects and skills.
- **Live:** https://pa-akinboade.netlify.app/

CERTIFICATIONS

HP LIFE: Data Science & Analytics, 2024
- Acquired foundational skills in data analysis, learning to interpret datasets and extract actionable insights to inform business decisions.
- Explored key data science concepts and tools to translate raw data into clear, strategic recommendations.

HP LIFE: Agile Project Management, 2024
- Mastered core Agile methodologies (Scrum, Kanban) to improve project flexibility, team velocity, and iterative delivery of value.
- Applied techniques for managing dynamic project backlogs, facilitating sprint cycles, and adapting to changing stakeholder requirements.

Virtual Assistant Certification, 2024
- Developed proficiency in remote administrative support, including digital communication management, scheduling, and client relationship coordination.
- Honed skills in time management, professional correspondence, and leveraging productivity tools to execute tasks efficiently in a virtual environment.

CISCO: Data Analytics Essentials, 2023
- Built technical competency in the data analysis process, from data collection and cleaning to analysis and visualization using industry-standard tools.
- Learned to apply statistical concepts and create dashboards to communicate data-driven findings clearly and effectively.

CISCO: Introduction to Data Science, 2023

- Established a comprehensive understanding of the data science lifecycle, including key methodologies for data exploration, model development, and machine learning basics.
- Gained hands-on exposure to the tools and programming languages essential for solving real-world problems with data.

Future Africa Academy: Junior Frontend Web Developer, 2022

- Developed dynamic, responsive web applications using core frontend technologies (HTML, CSS, JavaScript) and modern framework (Reacts).
- Built and deployed interactive user interfaces (UIs) by translating design mockups and wireframes into functional, cross-browser compatible code.
- Applied version control best practices using Git and GitHub to manage project codebases, facilitate collaboration, and track feature development.
- Participated in agile development cycles, contributing to project sprints and code reviews to enhance final product quality and team alignment.

Omolara Computer & Photography: Photography & Graphic Design, 2017

- Mastered core principles of visual design, composition, and color theory to create aesthetically balanced graphics and photographic compositions for client projects.

- Developed technical proficiency in industry-standard design and editing software (e.g., Adobe Photoshop, Illustrator, CorelDRAW), building a foundation in digital image manipulation and graphic creation.
- Executed full-project workflows from client concept briefing and asset creation to final digital delivery, honing skills in project interpretation and deadline management.

Campus Ambassador Program, 2023-2024

- Acted as a brand liaison, developing and executing outreach strategies that increased program awareness and engagement by over 30% within the student community.
- Leveraged social media and campus events to foster community, resulting in a 25% rise in applicant inquiries for the represented organization.

Certificate of Appreciation for Community Support, 2024

- Recognized for dedicated volunteer service and leadership in organizing community initiatives that addressed local needs and fostered collaborative partnerships.
- Applied problem-solving and organizational skills to coordinate resources and support the successful execution of community-driven projects.

CORE SKILLS

Technical Skill

Programming & Development: JavaScript (ES6+), React.js, Python (Flask), SQL, HTML5, CSS3, REST APIs
Data & Visualization: Power BI, Tableau, Microsoft Excel, Data Cleaning, Dashboard Design, Statistical Analysis
Design & Creative: CorelDRAW, Adobe Photoshop, Lightroom, UI/UX Principles, CapCut
Tools & Platforms: Git, GitHub, JWT, Chart.js, Canvas API, jsPDF, Agile/Scrum, MS Office Suite

Non-Technical Skills: Leadership, Strategic Thinking, Team Collaboration, Problem Solving, Communication, Attention to Detail, Time Management, Adaptability, Public Speaking, Communication, Multitasking, Creative Thinking

OTHER INFORMATION

Language: Fluent in English and Yoruba with strong written and verbal communication skills

Personality/Soft skills:

- Impactful public speaking and presentation.
- Attention to detail with inquisitive mind to learn and ability to grow continuously through every feedback.

Hobbies: Surfing the internet, research, traveling and watching football.
